

SOHIB KHAN

FULL STACK QA INTERN

+91 9145921300 | sohiblodhi59@gmail.com | GitHub | [LinkedIn](#)

CAREER OBJECTIVE

Detail-oriented QA professional with hands-on experience in manual and functional testing, currently pursuing a BCA and interning as a Full Stack QA at Artifact Geeks. Skilled at validating user workflows, identifying critical bugs, and ensuring cross-browser reliability across web applications. Actively building expertise in automation testing with Selenium and Playwright, with a strong focus on transitioning from manual to automation testing and contributing to efficient, scalable QA processes.

INTERNSHIP EXPERIENCE

Full Stack QA Intern — Artifact Geeks

Feb 2026 – Present

- Performing comprehensive manual testing across multiple web applications to ensure functionality, usability, and reliability
- Identifying, documenting, and tracking bugs to ensure timely resolution and improved software quality
- Collaborating with development teams to validate features and ensure alignment with project requirements
- Gaining exposure to full-stack QA processes including functional, regression, and UI testing

PROJECTS

Namdev Community — QA Testing | namdev-community.artifactgeeks.com

Performed end-to-end manual testing on the Namdev Community web platform. Validated user workflows, identified critical UI/UX issues, and ensured cross-browser compatibility.

LinkHub — QA Testing | linkhub-frontend-tox5.onrender.com

Performed manual QA testing on LinkHub, a link-in-bio platform for creators and founders. Validated core user flows including account signup, profile customization, theme selection, and pricing tiers, and verified UI consistency and responsiveness across the landing page and dashboard.

AI Job Fit — QA Testing | aijobfit.artifactgeeks.com

Conducted manual testing on AI Job Fit, an AI-powered job matching and resume evaluation platform. Validated form inputs, resume upload flows, and AI-generated results for accuracy and consistency, and reported usability and functional issues to the development team.
